

## How to Use

### How to Use:

**Before cleaning:** Test SPOT CHOMP! in a hidden area for color fastness. If color is affected do not use.

### Directions:

Vacuum thoroughly to remove loose soils. Blot wet soils with a clean, absorbent cloth. If carpet is being treated for the first time, check for colorfastness in a hidden area.

- 1.) SHAKE CAN WELL before using.
- 2.) Spray stained/soiled carpet from a distance of 4-6 inches.
- 3.) Gently blot or rub with a clean, absorbent white cloth.
- 4.) Repeat steps 2 and 3 as needed.
- 5.) Let dry thoroughly.
- 6.) Vacuum as needed to restore carpet pile.
